GOALS

As a Ruby on Rails developer, I'm looking to work in an environment with other developers who are excited about the code they write, find pride in their work, and value strong communication skills. An organization that promotes further education and advancement would be ideal at this early stage in my development career.

PROJECTS

It's Gif, Not Jif (individual gSchool project)

<https://github.com/JennyAllar/itsgifnotjif>

An ongoing repository for uploading, favoriting, searching and texting animated gifs. I really honed some of my CSS skills by attempting to give this app a Pinterest-like look.

Used: Twillio, BCrypt

gSchool Who?! (individual gSchool project)

https://github.com/JennyAllar/gschool_who

An online version of the classic board game Guess Who using preselected characters with the option to upload your own game pieces.

Used: Devise, HTML5, pusher

EDUCATION

gSchool - Boulder, CO

Full-Stack Ruby on Rails Development, graduating August 2014

Ferris State University - Big Rapids, MI

B.S., Television and Digital Media Production

EXPERIENCE

Multimedia Production Specialist - Flint, MI

Mott Community College - November 2010 - February 2014

Troubleshoot, repair, and maintain equipment in smart classrooms on campus using Crestron A/V solutions. Manage group of student employees and intern in the delivery services of audio/visual equipment across campus. Produce, shoot, and promotional videos for the college and its programs.

Video Production Specialist - Sterling Heights, MI

City of Sterling Heights - October 2007 - October 2010

Assist with planning, coordinating, programming, direction, and televising of public access television programs. Pre- and post- production work on sporting events, instructional videos, news stories, and special events.

ADDITIONAL INFORMATION

Employee of the Year - 2009

City of Sterling Heights
